Tenths wheel is red on white.
Other wheels are white on black

Mounting

0.500-20 UNF 2A threaded integral mounting stud

Construction

Case: Diecast zinc
Figure wheels, pinions and gears: acetal resin
Crystal: polycarbonate resin
Needle bearings: steel
Main shaft: hardened steel

PERFORMANCE WHEN IT COUNTS!

**V
R** **VEEDER-ROOT**

One Model For Any Tire Ever Made... Or Ever Will Be Made!

Features & Benefits

- **Drop Your Inventory**
Replace your bloated inventory with just one standard unit to handle all of your tires sizes. Digital electronic circuitry allows rapid and easy configuration anywhere, without need for a specialized programming instrument.
- **Error Free Display**
Large, high-contrast display always remains in upright position providing easy, reliable and highly accurate data collection
- **Extended Record Keeping**
Separate trip and lifetime totals permit specialized record keeping methods. Rite-Trak's setup features include capturing data as miles or kilometers.
- **Secure, Reliable Operation**
5 year warranty — no mileage limitation. Security features include serial number viewing via the display as well as tamperproof setup scheme. Only one moving part for increased reliability. Secure lockout feature. Changes to the unit's setup can be permanently disabled to prevent tampering. May be preset to any starting value.

Specifications

Display

LCD, 7 digits, 0.45" high (11.43mm)

Warranty

5 year — no mileage limitation

Mounting

0.500-20 UNF 2A threaded integral mounting stud

Construction

Case: Diecast zinc
